In addition: Conversion of the firing equipment of the gravity discharge furnaces (Durchstossoefen) from the use of coal dust to the use of producer gas, and the installation of a central generator installation with 6 generators of 2,600 mm diameter each.

25X1 1. Comment. This plant considerably exceeded the 1951 quota for the production of iron plates and forgings. By the end of November 1951, 39,037 tons of iron plates and 210 tons of forgings had already been produced.

25X1 2. Comment. Total ss received. The correct total according to breakdown should be 4,038,250 eastmarks.
